## PROFILE

Brand/UI designer based out of Los Angeles, CA. 6 years design experience with 4 years print experience. Know the can and cannot's of print production, an experience not many have. Minimalist aesthetic, and can branch out when necessary. Well spoken with a personality that can deal with a variety of clients. Work ethic is second to none. Determined to do the best of my abilities to ensure a product a client loves. Willing to do what it takes to get urgent projects moving forward to completion.

<b>Mac/Windows</b>	Excel
	Powerpoint

## PERSONAL SKILLS

- Fluent in English and Spanish
- Works well under pressure
- Able to adapt to new directions easily
- Communication is excellent
- Dedicated to the cause

## WORK EXPERIENCE

### Production Manager

Gold Image Printing – January 2018 - Present

Specialty jobs moved through me before going into production. In charge of ordering special papers, inks, foils, extra assets, and general preparations for offset, large format, and letterpress jobs. I am a consultant to prepress designers in regards to imposition and file prep. I am the first point of contact when it comes to presschecks and questions regarding clients' orders. I coordinate with pressmen and supervisors to ensure production is on time. I also built relationships with vendors both old and new for whatever would be needed.

### Prepress Designer

Gold Image Printing – August 2015 - December 2017

Prepped files before sending to pressmen. Design jobs ranged from logos to cohesive branding packages for clients (business cards, letterheads, labels, etc.) I was the first line when dealing with customers and managed the bulk of orders coming through on our online system and walk-ins.

### Designer

Local Print – July 2014 - December 2014

Designed clients' products, which included t-shirts, business stationery, banners, etc. I was first up to service customers. I also typically quoted most projects, which gave me my first taste of business experience.

## EDUCATION

### Bachelor's of the Arts - Media Arts & Design

Mt. Sierra College – September 2011 - December 2015
